· Prices stated are guide prices only and do not include any labour or painting costs where applicable. · In the case of alloys wheels, new tyres may be required. Any prices quoted do not include the cost of tyres. · Certain accessories may not be compatible with other accessories or standard vehicle specifications and equipment. · Some accessories may require additional parts or fitting kits that are not included in the stated price. Accordingly, you should contact your local authorised Nissan dealer for the most current information.

NISSAN PRIMASTAR Performance

Work made easy

DRIVING PERFORMANCE

Less like a van, more like a car

Primastar has stable handling and secure roadholding, thanks to MacPherson-type front suspension and torsion beam rear suspension. Automatic variable setting dampers, power steering and a dashboard-mounted gear lever make it easy to get the most out of your Primastar.

3 dCi engines with high torque

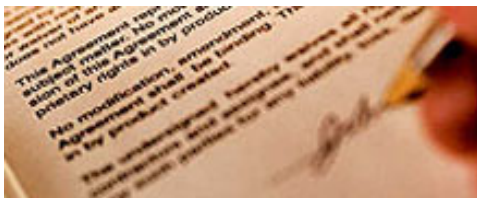

With three common-rail diesel engines, there's something for everyone: 82 HP with 190 Nm of torque, 100 HP with 240 Nm, or 135 HP with 310 Nm of torque. There are also two manual gearboxes: a standard six-speed to maximise fuel economy. And a five-speed, available on the 82 HP 1.9 dCi.

ABS & EBD

Primastar stops as well as it drives, offering one of the best braking performance in its class. Electronic Brakeforce Distribution (EBD) gives you predictable and balanced stopping power, even in the unlikely event of a partial failure. EBD is available with ABS to prevent the wheels from locking - keeping you in control.

RUNNING COST

3-year manufacturer's warranty + 12-year anti-corrosion warranty

Primastar is backed by a 3-year or 60,000 miles (whichever comes first) parts and labour warranty. In addition Primastar's body is protected by a 12-year anti-corrosion warranty, with paintwork protected by a 3-year warranty.

Low fuel consumption engines

Primastar's common rail diesel engines are designed to take on the daily rigours of stop-and-start driving. These engines deliver fuel efficiency that minimises running costs and maximises profits. And the 90-litre fuel tank gives you a long range between refuelling.

2-year or 18,000 miles service intervals

Primastar has been engineered to minimise your operating costs and only needs to be serviced every 18,000 miles or 2 years (whichever comes first). And because you have more time on the road and less downtime, we've even incorporated a maintenance warning to remind you when your next service is due.

NISSAN PRIMASTAR

Safety and Security

Keeping your business safe

PASSIVE & ACTIVE SAFETY

Airbags and seatbelt pretensioners

A driver's side airbag is standard on all models, as well as seatbelts with pretensioners and load limiters. For even more reassurance, you can specify an optional front passenger airbag.

Even safer with ABS+EBD

Primastar stops as well as it drives, offering one of the best braking performance in its class. Electronic Brakeforce Distribution (EBD) gives you predictable and balanced stopping power, even in the unlikely event of a partial failure. EBD is available with ABS to prevent the wheels from locking - keeping you in control

SECURITY

Secure your load with Primastar

Convenient and secure, remote central door locking is particularly useful when unloading in busy streets.

Alarm system

The NATS alarm upgrade offers perimetric exterior and ultrasonic interior protection. It's more reliable than generic systems, reducing the chance of a false alarm and standard on SE grade versions.

Engine immobiliser

We've equipped Primastar with an immobiliser to deter thieves. The engine won't start without the coded ignition key - so you'll always find your Primastar just where you left it.
