From professionals to professionals

When you choose the New Partner, you're choosing more than a simple van. You're buying a vision, Peugeot's vision, created to satisfy your specific requirements and meet all of your expectations: a vision of a totally original vehicle, designed to work for your business as well as your drivers.

This is based on real, practical benefits that will help you get the most out of your investment: carrying capacity, flexibility, driving pleasure, style and low running costs.

Carrying capacity: New Partner's load space boasts class leading capacity and is very easy to access. In the standard (L1) version, a cubic capacity of 3.3 to 3.7* m³ (3.7 to 4.1* m³ in the extended (L2)** version) and a payload of 625 to 850 kg will help you get the most out of your van, every day.

Flexibility: Thanks to the innovative Multi Flex passenger seat, New Partner offers even more flexibility and carrying capacity, making it the perfect business partner.

Driving pleasure: Comfortable to be in however long your journey, New Partner features an ergonomically designed driver's seat plus lots of storage spaces to make your working life easier. It's also very enjoyable to drive thanks to Peugeot's high quality, technologically advanced engines.

Style: With its dynamic lines and rugged character, New Partner has all the style you could want.

Running costs: Economical engines and robust build quality help to keep costs as low as possible.

All of these qualities are those of a true professional, always ready to get the job done effectively. Looks like the relationship between you and your New Partner, as two professionals, is destined to be perfect.

*Versions equipped with the Multi Flex passenger seat.
**Available in September 2008.

Model shown has 15" Auckland wheels (only available on SE) and optional front fog lights

Models shown include optional front fog lights. The two panel vans are SE specification with optional second side sliding door

A range to meet every requirement

All professionals and organisations have different needs. That's why we've made New Partner available in a variety of specifications.

• Body shapes

Tailor your New Partner to suit your business. Choose from two vehicle lengths, two load volumes and two load lengths*, a big step forward in the flexibility and choice offered by the Peugeot small van range.

*L2 available in September 2008.

• Doors

Choose your New Partner's door layout to make getting your stuff in and out of the load space really straightforward. You can choose either one or two sliding side doors*, and the asymmetric hinged rear doors can be panelled or glazed*.

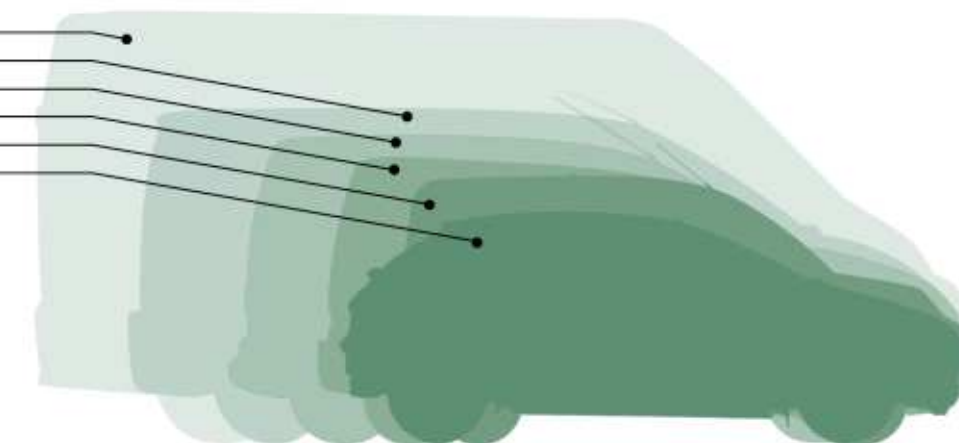

*Optional.

• Platform cab version

Need a refrigerated van with removable chiller compartment, or a van designed for the construction industry? New Partner offers an excellent base for converters, allowing you to adapt the vehicle to your individual requirements.

Peugeot light commercial vehicle load capacities

- Boxer: 8 to 17m³
- Expert: 5 to 7m³
- New Partner: 3.3 to 4.1m³*
- Partner Origin: 3m³
- Bipper: 2.5 to 2.8m³*
- 207 Van: 1.1 m³

*Including fold down Multi Flex passenger seat option.

Modern and dynamic style

From the moment you lay eyes on the New Partner you know it means business.

and its wraparound lower front panel are designed to make both you and your business look good.

Its tough yet dynamic style suggests strength, confidence and capability,

passenger seat.

Space to suit the way you work

Small enough to be handy and agile, yet hugely accessible and big enough inside to take whatever you throw at it, New Partner is your ideal workmate. At the rear; the asymmetric hinged doors ensure easy loading, and you can make this job even simpler if you choose the optional sliding side doors. The mid height rear lights are

positioned well above the impact zone, protecting them from the majority of low speed knocks. Lastly, door hinges concealed behind the lights are just another example of the attention to detail, quality and aesthetics that have gone into New Partner.

Two lengths

Need a bit more room? The New Partner comes in two lengths, the 4.38m standard model (L1) or; with an extra 25cm on the rear overhang, the longer 4.63m* (L2). Both models are 1.86m wide with door mirrors folded

(2.11m including door mirrors). Plus, as the wheelbase on the longer model is the same as the standard model, it gives you extra space without compromising on the handling.
*Available in September 2008.

Three possible payloads

New Partner offers three payloads. Choose between 625kg or 850kg on the standard model,

the best in its class. The payload on the L2 (extended) model is 750kg.

Platform cab*

If you need something a bit more bespoke, the New Partner is also available in a platform cab version.

This allows a wide variety of conversions such as refrigerated compartment, pick-up or tipper.
*Available in September 2008.

* extended version

Space designed for you and your business

More room inside

The load space available in the New Partner is up there with the best in class – there's enough room to carry a Euro pallet lengthways. The load length ranges from 1.80m to 3m on the standard model (depending on whether you have the Multi Flex passenger seat* up or down), and from 2.05m to 3.25m on the longer model. Both models also boast

a maximum load width of 1.62m and a width between wheel arches of 1.23m.

* Available on the SE version

A very accessible load space

Loading your van shouldn't take up half your day, so we've designed the New Partner to help you out as much as possible. The low load sill makes for easy access even when you're carrying

heavy items, and the asymmetric hinged rear doors open to an angle of 180°, making it simple to access the generous load area, especially when you're loading bulky objects.

Adaptability second to none

Once you've loaded your New Partner, you want peace of mind that your cargo is stored securely. On the floor, 6 tie down hooks are

fitted as standard to stop loads moving around. In addition, New Partner offers a wide range of bulkheads such as a driver's ladder frame protector; a half-height bulkhead with load space access door or a half-height bulkhead with upper grille.

Internal dimensions	Short version		Long version
	Payload	625 kg	850 kg
Load length (to the seats)	1800 mm		2050 mm
Load length (with the Multi Flex passenger seat)	3000 mm		3250 mm
Maximum load width	1620 mm*		1500 mm**
Width between wheel arches	1229 mm		1229 mm
Maximum load height	1250 mm		1250 mm
Cubic capacity	from 3.3 to 3.7m ³ ***		from 3.7 to 4.1m ³ ****

* without sliding side door;
 ** with one sliding side door;
 *** with the Multi Flex passenger seat retracted.

Bulkheads

1. Driver's Ladder Frame Protector
 Loads occasionally move around during transit, so a 5 bar protective ladder is situated behind the seat as standard to protect the driver.

2. Half height bulkhead with upper mesh grille
 This bulkhead includes a half height bulkhead with upper mesh grille.

3. Load space access door
 Make the most of the extra space offered by the Multi Flex passenger seat. The half height bulkhead has an optional removable access door for longer items.

Loading aids

Practicality

4. Rear roof flap*
 Easy to open and use, this allows you to carry extra-long objects with the doors closed.

* only available with one sliding side door

5. Rear door lock
 If you need to carry an awkward load, you can drive with the large rear door locked shut and the small door open (subject to Highway Code regulations).

6. 12 volt connector and removable lamp
 Sometimes, the demands of the job mean you need to be able to see in the dark. On the SE model, the load area features a removable lamp and an additional 12 volt connector so you can carry on working even if the light's poor.

Convenience with the innovative Multi Flex passenger seat

Choose how you use New Partner's interior space to stay one step ahead. Its unique modular Multi Flex passenger seat, standard on SE models, allows you to increase your load capacity and storage length by using the passenger seat area.

For example, the side seat folds completely flat to free up a continuous flat floor, which runs the length of the van. Your New Partner can then accommodate loads up to 3m long (3.25m on the long model) and 10cm high.

The cushion of the side seat can also be raised to allow tall loads to be carried in the cab area.

And if you need to make notes or catch up with paperwork, the backrest of the middle seat converts into a handy writing table, while lifting up the seat cushion provides access to a hidden storage space.

Model shown is an SE with optional front fog lights and second side sliding door

1. Thanks to the Multi Flex passenger seat, plus a central seat for occasional use, the New Partner can seat up to two passengers.
2. The side seat retracts fully. Long loads can be slid easily into place without encountering any uneven surfaces.
3. When folded, the backrest of the central seat converts into a flat writing space with a strap to hold documents.
4. The cushion of the side seat lifts completely to carry tall loads.
5. The cushion of the central seat hides a storage space underneath which can be equipped with a padlock (not supplied).

Driver and single passenger seat

New Partner is designed to help you work on the go. On the S model, the passenger seat offers the same comfort and support as the driver's seat, and this seat's backrest can fold when needed to create a useful writing table.

High-performance audio equipment

OK, you're at work. But that doesn't mean you can't enjoy yourself. New Partner is an entertaining place to be, with a modern audio system and digital communication equipment.

MP3 compatible RD4 audio system
Featuring two speakers located in the front doors, the New Partner's RD4 audio system has an output of 4 x 35 watts, separate adjustments for bass, treble, balance and fader, and an MP3 compatible CD player and an RDS radio tuner with 18 memory presets.

Bluetooth® hands-free kit*

Keep your hands on the wheel with this optional hands-free kit. You can hold a conversation without removing your Bluetooth® compatible GSM mobile phone from your pocket, using the steering wheel mounted controls and the microphone incorporated in the courtesy light console.

Numerous cleverly placed storage areas

New Partner is full of ingenious storage ideas. Indeed the total available storage volume can be as much as 61.5 litres, meaning there's more than enough room for all your essential bits and pieces.

Driver's glove box
The fascia panel of New Partner incorporates an easily accessible glove box behind the steering wheel with a volume of 4.1 litres, perfect

for maps, smaller bits of kit or even your coffee flask.

Storage under the driver's seat
If there are items you always need to have close at hand, a storage drawer is available under the driver's seat on the SE model.

Work in complete comfort

We've designed New Partner with the comfort of driver and passenger in mind, creating a modern work environment with high-performance features.

Driving assistance equipment

Running a van no longer means you have to compromise on your driving enjoyment and comfort.

A trip computer and electric front windows are equipped as standard, and the Visibility Pack* (automatic windscreen wipers and automatic headlights on) and folding door mirrors* add extra convenience. What's more the "Hill Assist" function, connected to the ESP* (dynamic stability control), provides an extra push if you need it when moving off on a hill.

*Available as an option.

If you spend a lot of time in the city, the New Partner can be equipped with an optional rear parking aid. It's very handy when you're manoeuvring in tight spaces or parking in narrow spots.

Visibility

With its wide, raked windscreen and large, sloping headlights, New Partner offers maximum visibility for driver and passengers.

Comfort

You shouldn't have to sacrifice comfort just because you're working. Thanks to its efficient suspension, New Partner is a fluid, comfortable drive whether the vehicle is loaded or empty. The electric windows and central locking are useful for both driver and passengers. Lastly, the interior noise level is kept pleasantly low, thanks to the fact that the engine and chassis are insulated from the rest of the passenger compartment.

Overhead storage

Overhead storage in the roof, with a total volume of 12.5 litres, is perfect for storing A4 sized documents and folders.

Model shown has 15" Auckland wheels (only available on SE) and optional front fog lights

Flexible and dynamic driving

All of Peugeot's engine and road holding know-how has been incorporated into the New Partner. By offering the choice of one petrol engine and two diesel engines, New Partner gives you the opportunity to find the vehicle that exactly matches your needs, whatever your business.

1.6 litre 16v 90bhp

Dynamic to drive yet set up for great economy at lower speeds, this new engine offers a winning compromise between performance and running costs.

1.6 litre HDi 75bhp

The entry level model in the diesel engine range, this unit comes with second generation "Common Rail" injection and offers remarkable economy to cost-conscious businesses. With plenty of torque available from the very lowest engine speeds, this engine combines very good load carrying capabilities with reduced running costs.

1.6 litre HDi 90bhp

The heart of the range, this efficient diesel engine offers excellent torque whether you're in town or on the motorway. Always a capable performer, it offers liveliness when moving off, good acceleration through the gears, and a dynamic drive regardless of load.

New Partner also offers competitive running costs.

If you're keeping an eye on your budget, New Partner makes an extremely cost-effective employee. The advanced HDi engines are highly fuel efficient and have low CO₂ emissions. If you drive a lot in the city, you'll know that small day-to-day knocks are an occupational hazard, but the wide wraparound bumpers, side protection mouldings and high level rear light clusters make New Partner highly resistant to low speed impacts.

Performance		
Engine	Maximum power (bhp at rpm)	Maximum torque (Nm at rpm)
1.6 litre 16v 90bhp	89 / 5800	132 / 2500
1.6 litre HDi 75bhp	75 / 4000	185 / 1750
1.6 litre HDi 90bhp	90 / 4000	215 / 1750

Fuel consumption MPG (L/100Km)				Emissions
Engine	Urban	Extra Urban	Combined	CO ₂ (g/km)
1.6 litre 16v 90bhp	26.2 (10.8)	41.5 (6.8)	34.4 (8.2)	195
1.6 litre HDi 75bhp	40.4 (7.0)	55.4 (5.1)	48.7 (5.8)	153
1.6 litre HDi 90bhp	40.4 (7.0)	55.4 (5.1)	48.7 (5.8)	153

Intelligence that protects

New Partner is a small van for today's business user, offering a comprehensive range of modern equipment designed to improve the safety of both driver and passengers.

Anticipation

- Braking**
 With two ventilated discs at the front (283 mm) and two non-ventilated discs at the rear (268 mm), New Partner offers high performance braking under all road conditions.
- EBFD**
 Electronic Brake Force Distribution (EBFD) controls braking wheel by wheel to maximise braking performance, particularly when cornering.
- ABS**
 The anti-lock braking system (ABS) helps you to control the vehicle during emergency braking by preventing the wheels from locking, helps reduce stopping distances to a minimum by amplifying the pressure applied to the brakes.
- EBA**
 Emergency Brake Assist (EBA)
- Automatic activation of the hazard warning lights**
 If you have to pull up sharply, the hazard warning lights will come on automatically to warn vehicles behind you.
- ESP***
 Available as an option, ESP (dynamic stability control) anticipates potential under- or over-steer and helps you to maintain control of the vehicle's steering.
- ASR***
 Traction control (ASR)* prevents wheel slip in the event of loss of grip.

Protection

- Front impact**
 New Partner has been designed to protect driver and passengers. In the event of front impact, the integrity of the passenger compartment is assured by three impact absorption structures; lower, medium and high. These are designed to gradually absorb impact energy, channelling it from the front to the rear of the vehicle.
- Rollover**
 The passenger safety cell is safeguarded in the event of rollover thanks to the vehicle's exceptional body strength.
- Protection of pedestrians**
 Vans often spend a lot of time in towns and cities, so pedestrian safety is high on Peugeot's agenda. The structure of New Partner has been designed to reduce the effects of an impact with a pedestrian as far as possible.
- Steering column**
 The steering column retracts over a distance of 40mm in the event of collision to provide maximum safety to the driver.
- Restraint systems**
 All the seats in New Partner are equipped with three point seat belts. The belts fitted to the front seats are height-adjustable, with pretensioners and force limiters (please note that if the Multi Flex passenger seat is fitted, the three point seat belt for the central seat does not have these features).
- Head restraints**
 The backrest of the seats and head restraints have been designed to follow the movements of the body in the event of impact, thereby reducing as far as possible the effects of collision.
- Airbags**
 In addition to the driver's airbag, New Partner can be equipped with an optional passenger airbag which protects either one or both front passengers, as well as side airbags.
- Fasten seat belt indicator**
 An indicator and an audible alarm warn the driver if their seat belt is unfastened.

Warning

- Cruise control/speed limiter**
 Available as an option, the cruise control lets you maintain a constant speed without having to use the accelerator pedal, while the speed limiter restricts the vehicle to a speed pre-programmed by the driver.

Theft protection

- Central locking**
 New Partner is equipped with central locking as standard, plus there's a locking button located in the cabin. And once the vehicle exceeds 6mph all the door locks are activated automatically.
- Selective locking**
 If you wish to leave the cab unlocked while the cargo area remains securely locked, you can do this by using the button located on the fascia panel. The status indicator on this button also tells you whether the load space is open or locked.
- Remote control**
 A three-button remote control plip key is available as standard on the SE version or as an option on the S version. It lets you lock or unlock the vehicle, or the load space only.
- Alarm**
 An alarm system is available as an option.

Peugeot and You

New Partner

When you choose Peugeot, you have the reassurance of knowing that your vehicle has been designed and manufactured to give you years of worry-free motoring. What's more, as a Peugeot owner, you can rely on a comprehensive range of customer care services from your Dealer. So you can be sure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently – someone who also has the expertise to maintain your Peugeot correctly, using trained technicians, Peugeot Diagnostic Equipment and Peugeot Original Equipment Parts.

Peugeot Warranties

As well as the 2 year unlimited mileage manufacturer's Warranty, all vehicles first registered in the UK and purchased from a UK Peugeot Dealer come with a free, optional additional year of Warranty through the Peugeot UK Dealer network. The mileage limit on this additional Warranty is 60,000 miles (100,000 miles for Boxer vans excluding Motorhomes and other converted vehicles) from first registration.

At the end of the 3 year Warranty period (or after 60,000 miles) you have the option to purchase a Peugeot Platinum Extended Warranty. Our cars also come with a 12 Year Anti-Perforation and 3 Year Paint Warranty (6 and 2 years on vans). For full terms and conditions on all of these, please contact your Peugeot Dealer.

Peugeot Assistance

All new Peugeots come with 12 months' Peugeot Assistance – our breakdown assistance service (36 months for the 607). This covers all incidents involving vehicle-based faults for you and anyone else driving your vehicle with your permission. It is available 24/7, 365 days a year.

Peugeot Assistance includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement vehicle or hotel accommodation if required. It can be extended for a further 12 months, or 24 months, and to protect you against non-vehicle faults (such as punctures) at specially discounted rates, by calling 0870 752 7050.

Peugeot service care

Peugeot vehicles benefit from extended service intervals of up to 20,000 miles or 2 years (12,500 miles for 1.6 HDi diesel and 2.0 litre 180 bhp petrol engines; 24,000 miles or 2 years on Boxer; 10,000 miles

or 1 year on 107). Please refer to the maintenance book for details of the service intervals for specific models and vehicles operating in arduous conditions.

To minimise the inconvenience often associated with servicing, our Dealers promise to offer you a number of options.

- A while-you-wait service, with a timed appointment.
- Local vehicle collection from your home, or from your work.
- Alternative transport to a train station, home, or work.
- By arrangement, a hire car at a concessionary rate.

What's more, they will aim to ensure that your vehicle is cleaned before you get it back.

Finance – Let the Specialists help

Peugeot Financial Services offer a number of flexible finance plans that make owning a new Peugeot easy. We specialise in car finance and can provide you with choice, convenience and flexibility direct through your local dealer.

Whichever finance plan you choose, your local Dealer will arrange it all for you.

If you would like more information on the range of finance products available, please ask to see our brochure. Written quotations are available on request from Peugeot Financial Services, Quadrant House, Princess Way, Redhill RH1 1QA. Over 18's only, a guarantee may be required.

Peugeot Insurance

Peugeot Insurance has been designed specifically for Peugeots and offers tailored cover at a competitive price. If you are unfortunate enough to have an accident, one of our Peugeot Approved Accident Repair Centres will repair your vehicle, using only Peugeot original parts. Plus we'll give

you a courtesy vehicle while yours is being repaired (subject to availability when you use an approved repairer).

When the time comes to renew your insurance cover, why not try Peugeot Insurance? You can call Peugeot

Insurance for a quote on 0870 0240 206.

Lines open 8am-8pm weekdays, 9am-5pm Saturdays. Max call charge from a BT landline is 8p per minute. Calls from other networks may vary. Calls may be recorded.

Peugeot Insurance is underwritten by UK Insurance Limited. Conditions apply.

Peugeot and the Environment

Our website has full details on all Peugeot products, and offers information available in the UK. You'll also find information about our environmental and recycling policies.

Peugeot Accessories

Peugeot Accessories are designed specifically for each model which means there are no compromises on fit or function. In addition they are rigorously tested to our own high standards giving you complete confidence and peace of mind. We also offer a wide choice of original Peugeot merchandise designed to suit your Peugeot and your lifestyle.
