

Common Financial Questions

Do I need to have been trading for a certain period of time or have business accounts to lease with you?

No. We deal with new start businesses all the time. We don't ask for a business plan and you don't need to be VAT registered. We have the simplest account application process in the UK. Many of our customers have started their businesses with a leased van from us and now have several vehicles on their fleet.

What information do you require for me to open an account with you?

All we need to know is where you want us to deliver the vehicle as well as your home address and date of birth. We also need to know your bank account details because your monthly payment is made by direct debit. Our simple application process means we can give you an answer quickly and have you in your new van and on the road with a minimum amount of fuss.

How long does the process take?

Opening an account through us can take a matter of hours, and we will guide you through the process. You simply need to complete an account application over the phone and we do the rest.

How much deposit do you require?

The deposit we ask you to pay when you start your leasing contract through us can be tailored to your exact requirements. Quite simply, the more you pay up front, the less the monthly cost will be. Often people only want to pay a minimal deposit which can be as little as a few hundred pounds. This means you can be driving a brand new van with a minimum cash outlay. This is a huge benefit of leasing over buying.
